

AD # _____

Textbook Scavenger Hunt!!!

Name _____

Period _____

You will be using the online textbook as your primary resource outside of class. Today's assignment is designed to help you become familiar with the online textbook. The better you know how to navigate around the website, the easier it will be for you to learn and succeed. Here we go!

1. Log into your ebook and bookmark the website. Click on the picture of the textbook. How many chapters are in the book?

2. Click on Chapter 1. Click on **1.1.1**. You will see problem 1 – 1. There is a picture to the right of the problem. What is the picture of?

3. Stay in Chapter 1. Return to the left of the screen and click on **Section 1.2.2**. Scroll down to problem 1–57. Read the problem and click on the words: **Homework Help**. Click on the **hint** box for problem **a**. What does the hint say?

4. Click on **1 Closure** and scroll down to the **Math Vocabulary**. Find the word ***proportion*** (should be in blue). The definition should appear if you click on the word. What is the definition of proportion?

5. Return to the left of the screen and click on **Reference** below the chapter numbers. Click on **Checkpoints**. Click on **CP-1** at the top. It is a problem on signed fractions and decimals. Read all the checkpoint problems and give the answer to Example 3.

6. Return to the left (under Reference) and click on **Glossary**. What is the fourth entry in the Glossary and write the definition?

7. Return to the left and click on **Student Support**. Click on **Resource Pages** at the top. Click on the Resource Page for **Lesson 5.2.1. Race Scatter Plot**. Open the document. The race begins from which Alaskan city?

8. Now tap on the Parent Guide tab. Here you will find extra help whenever you need it. Under Chapter 5, click on Systems of Linear Equations. What is the solution for question #3?

9. Now, using graph paper, complete problems 1-4 to 1-7 from your textbook. You will need to use the set-up and process demonstrated in class.
