Number Bond Card Game

Preparation:

Print playing mat templates.

Print number circles (2x numbers 0-10; 1x number 11-20)

Cut out number circles.

Play:

Place one playing mat in front of players.

Shuffle the number cards and place them face down on the table.

Use the numbers 0-10 for beginners and 0-20 for more advanced players.

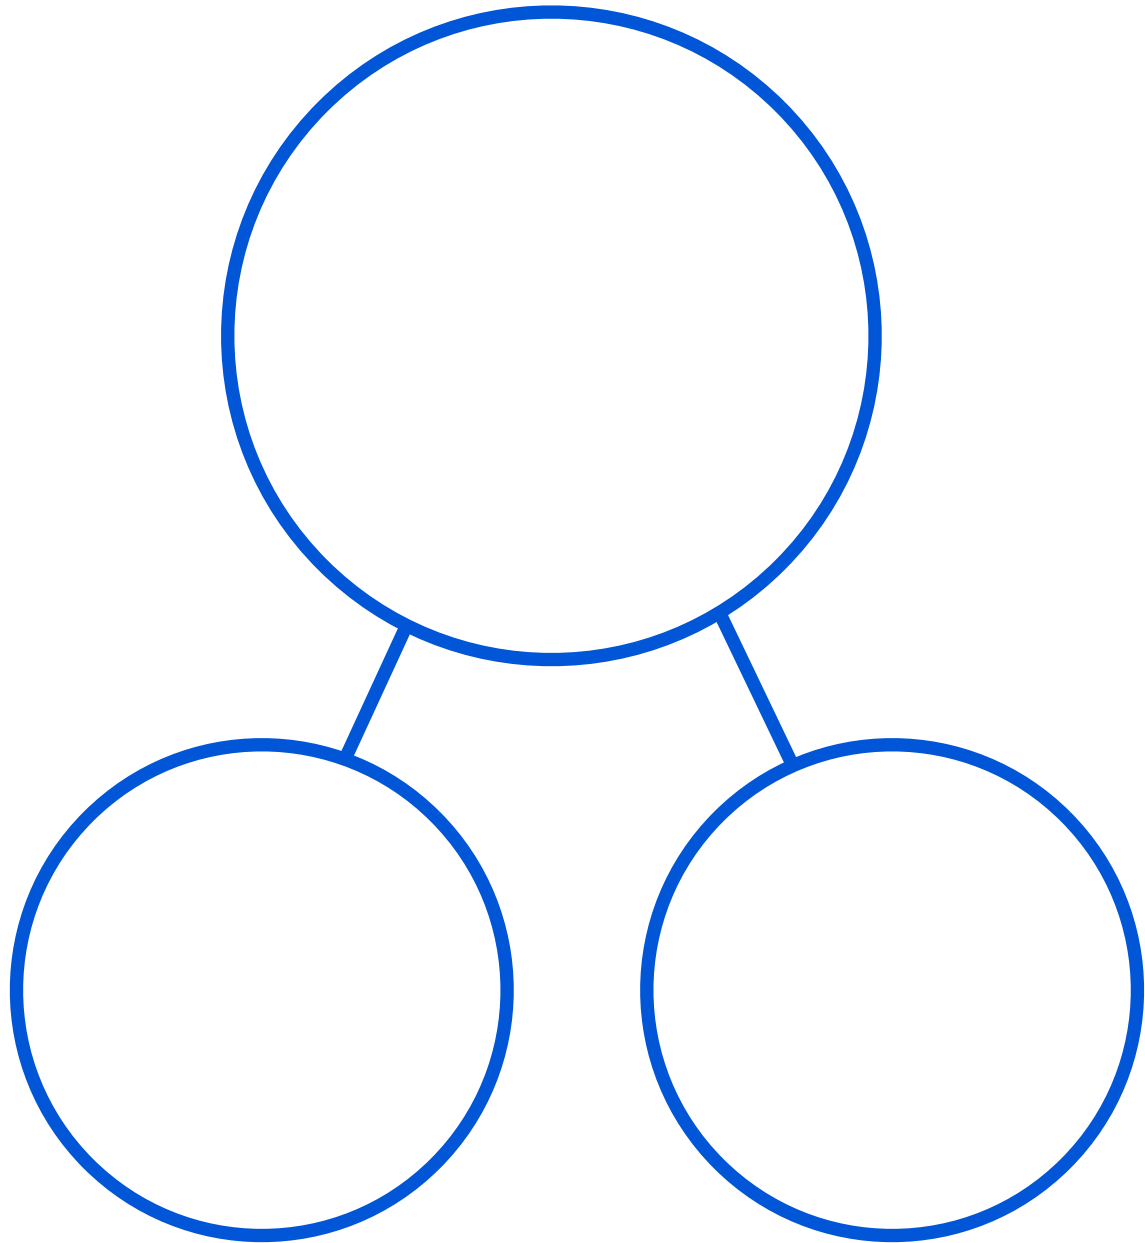

Place one card in the top circle of the number bond.

Player 1 picks a card, if that card could be part of the number bond, the player places it in one of the circles. If not, he keeps the card and Player 2 takes a card. If the card can complete the number bond, Player 2 keeps all three cards. If the card does not complete the bond, Player 1 takes another card.

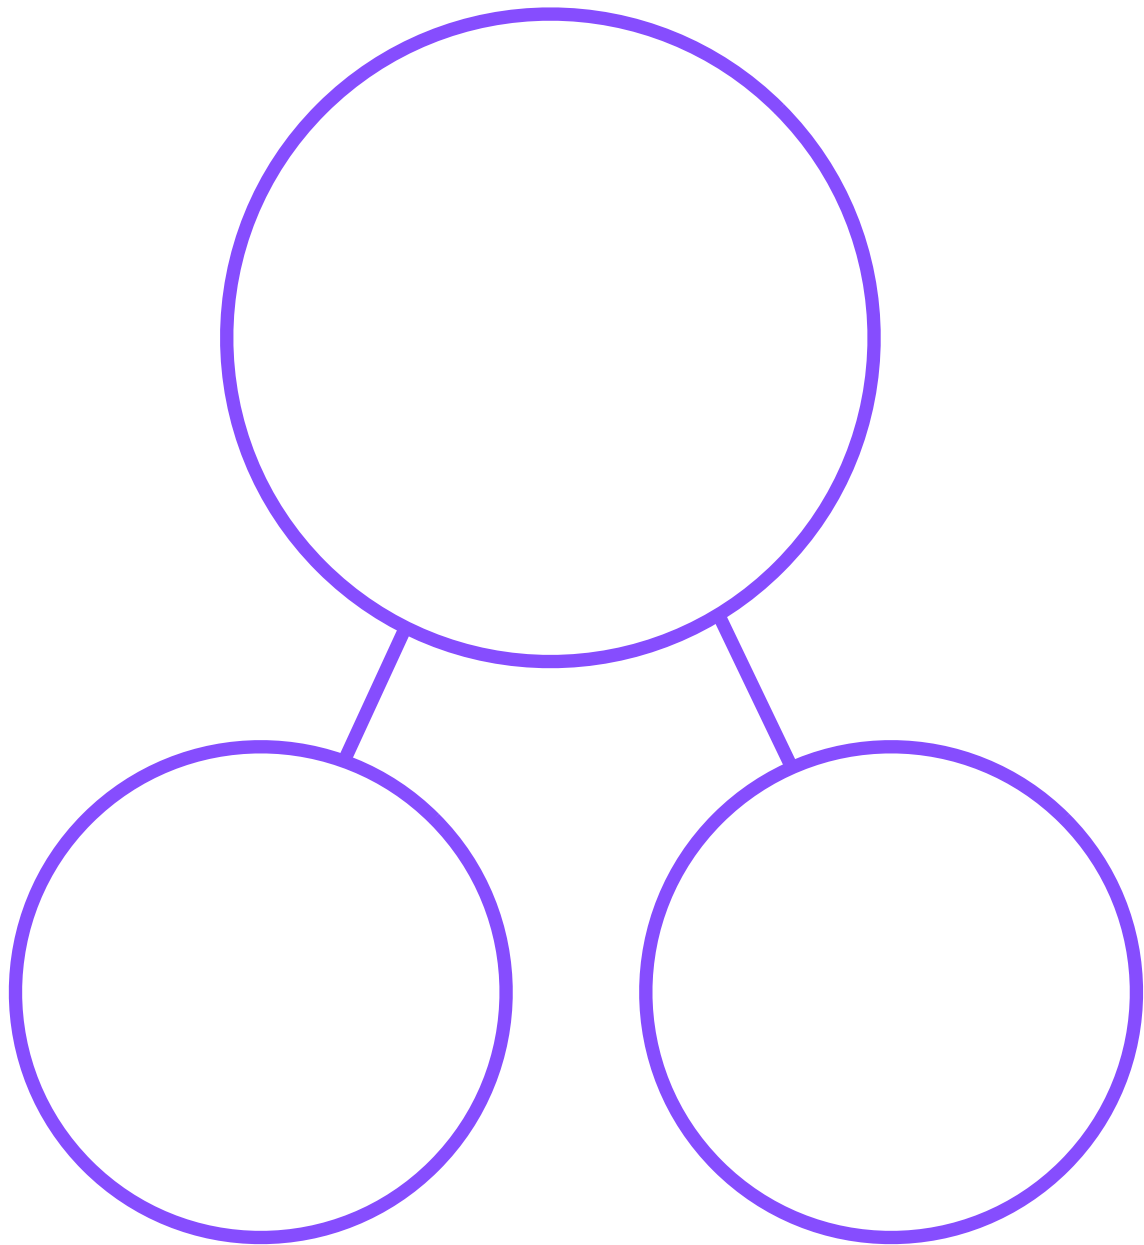

The game continues until the number bond is complete.

Then place a new card in the top circle and repeat.
