Art Show

On Tuesday, we visited the Art Show and had the opportunity to see all of the beautiful artwork created by the students of Room 23 and Strawberry Point School. Pictures from the event have been posted on seesaw.

We will be doing a technology project in the library on Thursday morning. Students will be recreating shape pictures in Microsoft Word. We will also be doing a paper mache project on Monday (4/30) and Tuesday (5/1). We could use as many parent volunteers as possible for both of these projects! Please let me know if you're available or sign up using this link:

Save the Date

Room 23 will be having a Poetry Reading on Tuesday, May 8, 2018. Students will be reading a poem from their collection of poems that are being written with Ms. P. The reading will begin at 8:30 and should last about 20 minutes. Hope to see you then!
Word Study
In Phonics, we focused on the /ow/ sound (as in cow) spelled ow and ou.
Our sight words were start, please, done, live, thank and funny.

Math
In Math, students learned about defining and non-defining attributes of shapes. They are now able to identify sides, vertices, open and closed shapes. They also are able to identify which shapes are polygons!

Science
We have continued to study animal and plant structures in Science. Students made models to investigate shells and armor.
During Library on Thursday, students applied their knowledge of structures to research how bugs survive.

Pen Pals
Our pen pal letters arrived from Los Angeles! We were so excited to read the letters from our new friends. As soon as the letters were read, students got busy writing back!

Art Volunteers Needed
We are back to "whole class" Art and need volunteers! If you are available, please sign up on our classroom website's "Volunteer Schedule" page.

Newspaper Needed
If you have any newspaper lying around, please send it in for our paper mache project!
