

# **Geography Challenge**

2020 Corona Edition

Play From Home

Everyone can try it!

**Where in the world  
is this place?**

This Geography Challenge was created by Old Mill second grader Neva Duncan.

First Hint: This unique place involves the confluence (you may need to look up that word) of 2 rivers and 4 international borders. It can be found on the continent that has more countries than any other.

Second Hint: Whitewater rafting and safari river boat tours are popular near this place. On which rivers? Well one begins with a **C** and the other with a **Z**.

Third hint: This place is home to many animals including lions, leopards, rhinos, and elephants.

Final hint: A little over an hour away from this place, you will find a spectacular, world famous waterfall. Some "daredevils" even swim right up to the edge of these falls.

# Where in the world is this place?

**Do your research.**

**Name all 4 of the countries that share a border at the confluence of 2 rivers (C and Z).**

**Email your answer to Mr. Selix at [jselix@mvschools.org](mailto:jselix@mvschools.org).**

**You will be notified if your answer is correct.**
