

Timestamp	Grade	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/5/2021 8:42:28	4th	No	Less homework	Not a lot of fun
5/5/2021 8:43:06	4th	No	Less work and no masks.	Zoom.
5/5/2021 8:43:11	4th	No	I could turn my camera off and walk away and eat snacks	Not seeing all my friends
5/5/2021 8:43:24	4th	No	I can sneak snacks	Well we had so much electronics
5/5/2021 8:44:07	4th	No	Not as much work	Not seeing friends
5/5/2021 8:44:21	4th	No	I could eat snacks and less work	My iPad would always die
5/5/2021 8:44:29	4th	No	I could sleep in	Away from my friends
5/5/2021 8:44:41	4th	No	Less work	Glitches
5/5/2021 8:44:52	4th	No	There was less work	I couldn't see my friends in person
5/5/2021 8:44:55	4th	No	I can turn my camera off and eat or do my work in bed and there is not so much work	Not seeing your freinds
5/5/2021 8:45:20	4th	No	School was shorter and I could get snacks when ever I wanted.	I couldn't see my friends.
5/5/2021 8:45:28	4th	No	I could get what ever I wanted when ever I wanted it	I could see all my friends in person
5/5/2021 8:45:30	4th	No	I could sleep in and have snack at any time and longer lunch and recess.	P.E was boring
5/5/2021 8:45:36	4th	No	My pod because I always had friends with me.	The iPads charged slowly and died quickly.
5/5/2021 8:45:54	4th	No	I could do school in my pajamas.	I couldn't see my friends.
5/5/2021 8:46:30	4th	No	I don't know	iPad was dying a lot. And signing onto different zooms every hour
5/5/2021 8:47:03	4th	No	You can get snacks and you see every body without a mask on	MISS FRIENDS!!!
5/5/2021 8:48:31	4th	No	I could sleep in	Technically difficulty's
5/5/2021 8:49:17	[Red	Yes	You get to where your pajamas	You had to do it on your ipad and the screen was glitching
5/5/2021 8:49:56	4th	No	Work is faster.	Lonely

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
No masks	Playing with friends
I hope there aren't masks and hope we are able to play after school.	Field trips.
Allow all the grades and classes to mingle	Learning more
No masks no masks no masks no Masks!	Trying to meet friends
No masks no recess areas	Seeing friends
I'm not going. To be here next year but unban zombie tag	Field trips
No masks!	Cool projects
No masks	Friends
I hope they bring back zombie tag	Field trips
That they unban zombie tag no masks I hope they don't bring us back to on zoom	
I hope they let kid's play on the entire black top. I hope they don't make us were masks.	I didn't get to go on field trips.
Less homework and a little more peaceful no stressful	Feild trips
Longer lunch and recess, unban zombie tag and to have all areas.	Field trips
No masks, allowing zombie tag and allowed to go on school grounds after school.	Friends.
Nothing	2 YEARS OF MY LIFE!!!
Let us see other classes, and play wherever we want at recess all around the playground.	Cool projects
No masks let us stay after school and UNBAN ZOMBIETAG	My friends are in the other class
They let us play in different areas with different classes and I hope they don't make us where masks	Socialism
We can talk to the another class	I didn't really now anything about the class
I hope there are no longer masks.	Paper work

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
Staying calm	No		
Vaccines.	No, not really.		
The COVID vaccine	No thank you		
They found a vaccine	No	[Redacted]	
Surviving the school year	Yeah unban zombie tag please	[Redacted]	
Making new friends	Could I be in the same classroom with [Redacted]?		
Learning division	No		
That we have vaccines	No		
That I got through most of the school year with a mask.	No		
The vaccine	Maybe less home work		
Distance learning	No		
Being able to cope with the pandemic but I still hate it.	No		
Music	Nope		
Getting through COVID in school	No :)		
Getting used to waking up a 7:03	Why did you ban zombie tag????		
That I can be with my friends			
The vaccine	No		

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/5/2021 8:49:57	4th	No	You didn't have to go to school you could just do work at home	Charging my iPad
5/5/2021 8:53:26	4th	No	I liked that there wasn't a lot of work and you did school at home.	We had to learn on an iPad so sometimes the internet wasn't working and learning on a device is harder than in person learning.
5/5/2021 8:57:21	4th	No	I got to watch more TV	Zoom and the homework because my mom and dad couldn't all was help but when I was in school the teachers would help me finish my homework.
5/7/2021 11:29:43	4th	No	You can sleep longer.	Listening to the teacher.
5/7/2021 11:29:53	4th	No	Going to the bathroom no driving home	Sitting in a chair for HOURS
5/7/2021 11:30:03	4th	No	The fact that we were AT HOME	Siting basically the whole time
5/7/2021 11:30:24	4th	No	Getting to eat food	My pets and that there was no teacher to keep track of my focus
5/7/2021 11:31:09	4th	No	I can eat snacks during school	That is was all online and my eyes hurt
5/7/2021 11:31:13	4th	No	You can travel a lot	Specialist sucked
5/7/2021 11:31:18	4th	No	Starting classes at 9:00	Focusing on the screen
5/7/2021 11:31:23	4th	No	Snacks, laying on my bed, a later start time, and being with pets	No playing with friends
5/7/2021 11:31:39	4th	No	That I could sleep in	That the iPad glitched
5/7/2021 11:32:39	[Red	Yes	I could get food at any time	I have a really hard time focusing
5/7/2021 11:33:10	4th	No	Snacks, bed, bathroom, video game breaks, pajamas, and NO MASKS!	School felt longer than it was, and breaks were short.
5/7/2021 11:33:41	4th	No	Staying home eating snacks going fishing before shlcool	Tanikal ish yous
5/7/2021 11:33:50	4th	No	Space to move around, More clean bathroom, snacks from home	Can't see your friends in person, No PE equipment, No playground

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
Add time and add balls	All of the recess
I hope that we can go on field trips and we don't go back to distance learning.	Field trips and playing more with friends.
Let me play with my other friends from the other class. Don't do the cones with the tap.	My other friends.
No I ready diagnostic.	Lunchtime was short.
Bring back the mad dash and bring back the lunch COICE and no xtra math	All of the events and field trips
Being able to play video games at recess	My friend's birthday parties
I hope they don't do areas in recess	Movie nights at school
I hope they allow us to bring electronics from home. But I also hope they don't bring back iReady and Xtramath.	Field trips and movie nights
Water fountain to be opened	Ice cream at beginning of school and end
I hope they bring back P.E for everyday and no more i-Ready	The mad dash and kids lounge
5 day p.e., longer lunch, no masks, and no social distansting	Field trips, mad dash, book fair, and playing with friends
I hope I will be Abel to my friends in the other class	I could not see as many friends at school
I hope we get to choose are snacks for hot-lunch	Mad dash
P.e. EVERY day, library during recess, and NO xtramath or i-Ready!	Playing zombie tag with my friends during recess, most of all.
NO HOME WORK	Feed trips
More PE, Be able to bring mobile devices to school, No I-Ready/Xtramath, extra lunch, Activity stations at recess	Mad dash, ice cream, Book fair, field trips

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
My writing	No		
Making new friends.			
Me and my mom and dad and my family.	No!!		
That I survived.	Can we make school more fun!!!!!!		
My school	Nah not really		
Getting a respectable team of Pokémon	No		
Making it this far in the pandemic			
[Redacted] and how we made it this far	No		
Going through the pandemic	Pe everyday		
Not getting killed by COVID-19	No		
Surviving school	Nope		
That were back in school	I think I'm good		
Passing a level in Extar math	No		
Learning division.	Happy summer!		
Surviving the year	No		
How far all have us have came	No		

Timestamp	Grade	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/7/2021 11:34:05	4th	No	Art and music class	Math, writing and p.e
5/7/2021 11:35:56	4th	No	Getting snacks when ever	Sisters
5/7/2021 11:36:14	4th	No	Snacks no driving good bathroom a later start time	You we're constantly on the computer and could not see our friends
5/7/2021 15:42:56	4th	No	Ewing lunch at home, have time to do stuff in the morning, being able to do a lot more things at recess.	It was hard to get called on, and there was a lot of technical difficulties, and sit by myself
5/7/2021 19:42:45	4th	No	No masks, Being at home.	Zoom, Shorter breaks!? Not in person, away from friends etc.
5/10/2021 10:48:47	5th	No	The flexible schedule	Remembering timings to get onto class
5/10/2021 10:48:49	5th	No	Not really anything. If i have to say something i would say having snacks and wearing comfortable clothing.	Distractions, and sometimes i had to get on another device to do some school, and a lot of other things that was slow or distracting.
5/10/2021 10:50:25	5th	No	I liked learning from home Because oh I got a snack whenever I want and I could stay in my pajamas.	I didn't see any of my classmates and I just saw them through tiny boxes.
5/10/2021 10:50:28	5th	No	I was giving all the work at the same time, so if I worked slower than others, I could still finish at the same time as them.	There were a lot of distractions, they made me want to forget about school and think about something else.
5/10/2021 10:50:44	5th	No	I got to play with LEGOs for recess, so that made it more fun.	I couldn't see my friends very often.

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
Cancel and close the school	Field trips and mad dash
Longer lunch recess. PE for 5 days. No more I-Ready. Green team. Kid lounge pizza at hot lunch. Pick what you want at hot lunch	Field trips .Movie night
Lunch choices bring back green team pizza at hot lunch more things to do at recess Library open at recess PE every day make lunch earlier so we're not in class for such long periods lunch recess is too short mixing grades at recess	Pe music and other specialist
These are all what I hope to change next year Have pe every day, have longer lunches, more choice lunch options ,library open on breaks, getting to play everywhere at recess, have i ready	Not being able to play with other classes at recess
PE every day, longer lunch, longer recess, desks together, no more caution tape/recess areas, Mad Dash!	[Redacted], seeing other classes, partners etc.
I hope they go back to how school was before the pandemic. I don't hope anything. I like it how it was.	Getting to know the teacher more
I hope we do more field trips and more science experiments because we didn't get to do a lot of that stuff this year. I hope they don't make school any longer or not do any science/field trips.	Cool science experiments because that was what hyped me up for fifth grade. I LOVE SCIENCE
I hope they go on field trips because we did not get to do that and that would've been really fun.I hope they don't Have to to wear a mask	I feel like I missed out on all the fun field trips we were going to do.
Next year I want people to work different with the kids, because when a teacher explains things one way, then some kids would get it and other won't. If somebody doesn't get it maybe the teacher should try a different way of explaining instead of saying the same things over and over again.	I feel like I missed out on being with my friends, I was isolated at my house with nobody to go to if I had problems, because my parents were working and the teacher was SO hard to get to online.
I hope they make the lunches better. The eggs are like rocks. I hope they don't put less effort into making the kids have fun.	A whole handful of field trips.

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
That I got ,y second certificate	I liked it when [Redacted] read a story at the end of school	[Redacted]	
Finishing extra math	Do more sarveys		
It's almost summer and we've gone so far	I hate masks		
I showed up every day, was very independent	Just please bring back longer lunches and no more I-ready		
Vaccine, family time, less HOMEWORK	No		
Being so flexible and making everything work out	No		
Being able to do math way more quickly and get better at area and perimeter.	Nope		
I am proud of that I have completed elementary school but I am a little sad to leave.	No		
I am most proud of the fact that I did so much work, and got a high score from it.			
In school, how much I learned in science, out of school, how good I am at scootering, and how good I am at LEGOs, and how good I am at wood building.	I don't mean to be asking a lot, but I think we could use some longer recesses, and 4 school days, and 3 weekend days.		

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/10/2021 10:50:53	5th	No	I was very flexible.	That I couldn't be with my friends.
5/10/2021 10:51:04	5th	No	You weren't that stressed and you could eat a snack when ever you want and your would be really flexible.	I couldn't see my friends as much.
5/10/2021 10:51:40	5th	No	Nothing but if i had to say something i would say having snacks and wearing comfortable clothing.	Distractions and sometimes i had to switch devices and also other slow or distracting things.
5/10/2021 10:51:52	5th	No	I liked the flexible schedule.	I think that being motivated to do the work was probably the hardest.
5/10/2021 10:52:30	5th	No	I liked that when you do your homework you can get it done fast, you can do it with chips by your side and also with music.	That you couldn't meet in person and do the lessons in person you had to do it virtually and some times errors happen and you can't do the assignment.
5/10/2021 10:52:37	5th	No	I liked how my schedule was very flexible. I could multitask and do others thing things at once. I was always in my room and I also liked that. I think it would be better in person but I still liked it at my house.	I didn't like how i couldn't see anyone in person, they were like mini heads on a screen. Sometimes the WiFi would be bad and i couldn't do anything, that was bad too. It also felt weird doing school in my own room, i liked it, but it was very different .
5/10/2021 10:53:51	5th	No	One of my favorite things about learning from home was I could space out my work or I could do it in one hour so then I could have a free afternoon. Another thing I liked was I could have breaks whenever I would like and I could have unlimited snack breaks.	One of the really hard things about learning from home was that it was hard to learn how to do zoom and how to adjust to distance learning over night. Another problem was sometimes the internet was really bad and you could not hear your teachers or the assignment was not posting. It was really hard.
5/10/2021 10:54:36	5th	No	I liked how our schedule was very free. In things like when to do things. Now of course not the things that had to be turned in there and then but the other stuff that may take more time.	I think that i, now this may Judas the be me, but i think that not having the teacher there in person with you is hard. Like say that you have a question, they would not be able to tell you and explain in person but on a tiny box.
5/10/2021 10:54:44	5th	No	I liked how we had a very open time to do things in between school.	One thing that was really hard for me to focus on zoom when there was like 4 other people playing around my house.

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
I hope the new 5 graders can do a lot of stuff like field trips and fun activities.	I felt like I missed out on the field trips and a lot of time being in school.
I hope we the same that we did before the pandemic.	I missed out on all of the fun stuff we could've did like go on a field trip.
I hope we do more field trips and more science experiments and i hope they don't make the days longer and not do field trips/science.	Science because that's what hyped me up for fifth grade.
I hope that next year, we won't have to eat lunch on the dirty black top, and that next year, we won't have to do any zoom.	I feel like I missed out on a ton of the big fifth grade field trips, like outdoor Ed and letting go of the trout. I also feel like we missed out on an entire year of kindergarten buddies like normal. Also, I feel like we're going to miss out on the usual big fifth grade graduation.
I hope that they don't change anything I like the way it is, I hope they keep everybody masked and safe.	I missed a lot of epic field trips and experiments that we get to do in fifth grade, we also messed up the traditional things that we do.
I think think its good right now, But it would be even better if we could go to normal. where we could talk to other classes and hang out with no masks.	I think i missed a lot of funny moments because I couldn't be with my friends.
I hope that adults work really hard to have us be in person to start and that we can see our friends. I also hope that we do not have to do zoom next year. I hope that the adults do not make us do zoom learning. Because that was hard for all of us.	In school I hoped that we could do the amazing field trips and go on the over night camping trip I also was sad that we could not do that many science experiments. In my personal life I feel like I missed out on seeing my friends and hanging out with them.
I am really hoping for it to go back to the way it was before the whole pandemic. But it most likely will not become TOTALLY normal.	We lost things like trips and experiences that would have taught us a lot of things. We also missed field trips. Which i find an amazing source of learning.
I think that things are pretty good here but one thing that I would say is that the kids got to Pinckney there one hot lunch sides.	I feel like the field trips were going to be a big part in my fifth grade year because when my sister came home from all of them she said that they were one of the most fun things ever.

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
That I am reading much better then before.			
How I improved my learning in math, writing and reading.	No.		
Getting better at area and perimeter.	I'm most likely going to a different state and school. (About a 97% chance of moving and I'm going to Rhode Island)		
Making it through with decent grades.	Nah just that		
Well I am most proud of making it through the year it is a crazy year so so different.	Well honestly I hate online school and hope you don't change anything.	[Redacted]	
I'm most proud of getting through all the hard things that COVID caused, such as online school.	I think schools are doing the best they can. They are doing a good job.		
I am so proud that we were able to do zoom school and figure everything out over one night and then we had hybrid and now we are in full person.	Thank you so much for making our year so much better!!!! I hope we do not have to do zoom next year.		
How we went from totally online tp full in person. I mean the zones outside are great. And how everything works now.	No not really.		
I think that I did a great job focusing I on zoom when there was a lot going around in my home and some people could not do that.	One thing I liked about the in person right now is the recess I like how they are organized and that one class plays in one place.		

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/10/2021 10:54:56	[Red	Yes	I liked how flexible the learning was and how you could eat and still learn and i feel like the flexibility gave me brain power.	I was used to getting to talk to friends but during COVID i could only talk to them when we got in a breakout room or through chat which they turned off.
5/10/2021 10:55:19	5th	No	Then thing I liked most about distance learning was the flexible schedule. Sometimes at in person school it feels like all of our work is bunched together in a hour or two, but at home we could spread out our work and do it when we wanted where we wanted.	Something that was hard learning from home is that it was really hard to focus on a screen for a long period of time. At the end of the day you felt more tired and exhausted than you ever did before at \ in person learning.
5/10/2021 10:55:51	5th	No	The thing I liked most about learning from home, was that I didn't have to go at anyone else's pace, I could go faster, or slower, or at the same pace as others.	The hardest the for me about learning from home, was that I didn't have much motivation, because I couldn't go to school with my friends.
5/10/2021 10:56:32	[Red	Yes	Being able to go on bike rides or swimming before i got on class	All the technology and nobody really being there
5/10/2021 10:57:12	5th	No	I had a super flexible schedule. Me and my family got to travel all over the place and it was super cool for me to experience different lifestyles, climates, and just overall ways of living. I don't think that would have happened if covid hadn't hit. We usually go places far away but this time, we stayed mostly in California.	If for example, the WiFi wasn't working or there were distractions, it was really hard to get any work done. Also the temptation of everything in my reach was hard. If I felt like I wanted to watch T.V, I knew I could but I also knew that I shouldn't. It was hard to rule out things on my own without a specific guideline.
5/10/2021 10:57:31	[Red	Yes	What I liked most about learning from home is that I had a vary open schedule. So I could kind of do what ever I want where ever I want.	For me the hardest part about learning from home is that all the technology was vary overwhelming to me.
5/10/2021 11:00:58	5th	No	I liked the fact that my schedule extremely flexible. I got to eat when I was hungry so I didn't starve.	Having to ask my parents for help instead of a teacher. This was annoying because my parents grew up in a different era so they do things completely different.

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
I don't really know what they should do because i think school right now is pretty safe and good for COVID. I hope they don't take out the hand sanitizer even after COVID because: 1. My hands get dirty and 2. Because most of our sicknesses come from school.	I think i missed out on lots of math in fourth but then in in person i feel like the math was easier to learn because we don't have many distractions in class.
During hybrid model I loved learning outside. You could be in the fresh air and not be stuffed together in a classroom. But on the other hand I hope next year they take away the playground cohorts. I get why they do it because of covid protocol, but we don't get to play with our friends in other classes and at some of the cohorts there isn't much to do.	I feel like I missed out on interaction with teachers. During in person learning they come over to your desk to check in on how your doing with your schoolwork. Also just little conversations in line or near your desk make your whole day 100 times better.
I hope that next year adults will include some more interactions, for example, mini field trips and such.	I feel like I missed out on a lot of holiday activities, fun field trips, and similar physical work.
I hope adults don't try to make me fit in the category of a "good student" because i am who i am.	The overnight trip at the highlands.
I hope that they can continue park school traditions and make things extra special like fun field trips, class experiments, and the regular wonderful things that park school has to offer. Especially for the fifth graders.	Well, for starters me and my family were supposed to go to Australia for the first time (for me and my sister) To me our cousins, aunts, uncles, and grandparents. School wise, We missed out on all of the incredible field trips, kindergarten buddies, and truly being the eldest of the school. I'm also disappointed that we couldn't do that camping trip up in tennessee valley, or the fishing trip, and basically everything else. We even missed out on outdoor ed
I hope that adults will make school more social so that we could play with the other classes. I hope that they don't have as much technology.	I feel like I really missed out on all the fun field trips that we would have gone on if it weren't for covid.
This one is a little weird. I hope that teachers will let us eat during class so we're not hungry and we can focus better. Eating when I was hungry really helped me in remote learning.	I was going to go on a huge vacation in June but it was canceled. I also feel like I've missed a lot of hands-on projects in school

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
I'm proud of how we adapted to online school. We had to learn super fast and i think we did a pretty good job.	Nope		
I am proud of how much I have grown as a classmate, friend, sister, and daughter this year. I am proud of how much I have managed to learn this year even through covid. And lastly I am proud of how much I have grown mentally this year.			
I am most proud that I finally got through all of the distanced learning, and we are back to semi-normal school.	My hope for next year in middle school, is that we will be able to celebrate holidays, such as Valentine's Day, or other holidays that are similar.		
Not going crazy			
I became a super great reader, and mathematician. I'm also proud that I Started babysitting for my neighbors. I did start two businesses as well. One called 'sweet science' which has its own website and domain, and another called sequoia box which me and my best friend [Redacted] started. Its a subscription box company that we kept mor local and didn't advertise online.	If in any way you could talk to MVMS and MTS and MCDS about following through with the field trips and experiences that we missed out on, that would be just amazing.	[Redacted]	
I feel like I am most proud of really improving on math this year.	No		
I am proud of the fact I got through the worst part of the pandemic and came out OK.	Thank you for asking our opinions on school.		

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/10/2021 11:02:30	5th	No	I had a flexible schedule were I could take breaks whenever I wanted to. I could also get all my work done at the start of the week so I didn't have to do it later. Lastly I didn't have to wake up super early to get to school.	When I was learning from home I couldn't see any of my friends at school. It was really hard to make friends because I only really knew one person and the only way I could see anyone was by going to Boyle Park and hoping for the best.
5/10/2021 11:11:14	5th	No	I could sleep in. All I had to do was wake up, get dressed, and log in to zoom.	I couldn't just raise my hand for help.
5/10/2021 11:11:33	5th	No	I liked the more relaxed concept of school. Right now I have a lot of stress getting up early making my lunch than having my brain think and work hard. During online school I had a very flexible schedule. Another thing I like was having more freedom to do things and change things when I wanted like if I had to go get a pencil or go to the bathroom Is don't have tp ask like I do in school.	I would say not challenging myself academically and physically, at home I would not try my best and work my hardest on activities and such, like I now do in school with in person. I also would always be in my room alone and feeling sad I was never in the mood to go outside and take a breach from the screen it was not a heathy choice for my insides and outs. Another thing is not being with all my classmates, instead I had to see them on a screen. One of my favorite parts of school is playing games and talking to my classmates, I always loved going into break out room because that was the only time we had the freedom to talk and have everyone hear us.

<p>After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?</p>	<p>What do you feel like you missed out on or lost because of the pandemic in school this year?</p>
<p>I'm hoping that we don't have to wear masks next year, and we don't have to social distance.</p>	<p>I couldn't do any of the cool things that everyone said we could like field trips, staying overnight at the beach, or any other crazy field trips. I couldn't do any of the cool things in [Redacted] classroom like playing the guitar.</p>
	<p>I was really disappointed when I found out that that we couldn't go on any of the field trips.</p>
<p>I want, like I said to interact with my classmates more. Because of COVID we do very few partner activities and projects and its not fun personality for me to work by myself it always makes a better experience to help and play and work with other people. Right now we can't mix with the other class and a lot of my friends are in there and I want to eat lunch and have recess with them as well. I hope next year they don't drastically change are learning because right now I think a lot of us feel we are not on a high academic level due to COVID, going into middle school I know will be a big change and It will be hard so I am hoping for teachers to not go easy but more take it slower.</p>	<p>I feel like I missed out on my 5th grade year witch is supposed to be filled with trips and switching classes and all of these fun things I have herd about and I really want to experience those things with all of my friends. I also feel I missed out on really trying to have fun in my last year at park it feels like just another park year, and I thought that would be different.</p>

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
Just getting through this year. Making friends and not getting super stressed out.	Not really that was everything		
I am very proud that my writing is improving. My typing is also improving(though that is not saying much).	Not really, just that I don't get the fifth question.		
I would say not giving up in online school. Though it was very challenging I felt like I came through and tried as hard as I could with everything that was happening.	I think maybe just that I would like do some fun activities like art and nature things I also love field trips and going to places I have never been and learning all about them.	[Redacted]	

; to follow up with you to share more information.

Timestamp	Grade	Did you prefer?	What did you like the most about learning from home?	What was really hard about learning from home?
5/10/2021 11:12:31	5th	No	I liked it because I got to spend time with my family, and I got to take breaks when I was feeling stressed and overwhelmed.	It was hard to not be stressed because there was a ton of work and I had to do like 3 different zoom calls a day.
5/10/2021 13:02:35	5th	No	I could go in the kitchen and get snacks in the middle of class	Zooooooooooooom
5/10/2021 13:03:34	5th	No	We had our own iPads.	Learning new things like learning math and social studies.
5/10/2021 13:04:21	5th	No	I could be with my cat during school	I couldn't see my friends
5/10/2021 13:05:38	[Redacted]	Yes	The freedom	The fact that we weren't there
5/10/2021 13:06:09	5th	No	Having dogs at home	Distractions make it hard
5/10/2021 13:06:37	5th	No	I got to get more sleep and also get to go to bed later and end school earlier.	It was harder to understand and ask questions when your not in person with your teacher

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
<p>I think you shouldn't get bad grades just for not turning in your homework because some people need more time and help than others do. I also think that testing people to see if they can go to the next grade on a website that we haven't been on the whole year is kind of messed up because you still learn it but you may not be good at it but at beginning of every grade you go over the stuff you in the grade before so you get better at it. I want teachers to give kids breaks when they're feeling stressed out, and before you say it if they can't see when kids are stressed then they have just started teaching, like my teacher always knows when I'm stressed out even when I don't even tell him and he's been teaching for like 24 years or something like that. I also think that if you're getting bullied nonstop you should be allowed to act in self-defense if they hurt you and punch I don't think the person acting in self-defense should get in trouble.</p>	<p>During the beginning of the year I missed hanging out with my friends and playing sports.</p>
<p>I want adults not to separate us I want no diagnostics</p>	<p>Boat trip Marin headlands trip market day buddies [Redacted] money and [Redacted] dollars</p>
<p>I hope we don't have to wear masks and I hope to go on field trips.</p>	<p>Field trips, outdoor ed, getting to work at home with my pets, and valentines.</p>
<p>Maybe let us have more mask breaks, and to not say we can't get water after recess</p>	<p>The school shop</p>
<p>I hope we use the iPads more because the activities were fun. But I don't want them to give us as much homework</p>	<p>The outdoor ed</p>
<p>I hope they don't do playground sections were different classes play. I hope they keep the iPads.</p>	<p>Outdoor ed and all the fun we could have had outdoors and the park schools special rituals</p>
<p>Do outdoor ed and go to the headlands.</p>	<p>Market day. Outdoor ed, marsh money and dunn dollars, not having to wear a mask, and having fun class parties.</p>

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
I think I was focusing better this year like actually I more focused then I've ever been this year because I usually never write this much.	I think MVMS should have better help and awareness for kids with mental disabilities like me I have ADHD and I've heard MVMS doesn't have good helping programs.		
Improving my math	No		
Getting through distance learning.	Not really.	[Redacted]	
I feel like I got better at math	I like anime, [Redacted] knows that	[Redacted]	
The fact that i am part of a significant historical event	No		
Getting through it with out going insane	I really appreciate [Redacted] amazing teaching. And I am so happy she is nice and not mean, because if she was mean I would go completely mad.'		
I think i am doing pretty well in math and reading and on my report cards this year i got all 3's.	I hated when we had to do a big pile of homework and one thing that was annoying was that there is a lot more rules now.	[Redacted]	

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/10/2021 13:06:41	5th	No	I stay in my bed longer	Zoom and the work we did
5/10/2021 13:07:53	5th	No	Getting to sleep-in	Zooms and the paperwork
5/10/2021 13:08:06	5th	No	I liked having more time before school and having a lot more flexibility on when you want to do your work.	Going on zoom Calls all day and having to sit there without even being in person. It was also hard to focus on work while having things around you to distract you.
5/10/2021 13:08:28	5th	No	You got to sleep in and also you could eat food and drink water and stuff whenever you wanted.	You couldn't see your friends and sometimes there was a technical glitch and stuff.
5/10/2021 13:08:54	5th	No	I liked how I could wake up earlier and take my time to make breakfast and stuff.	The specialist classes were harder because we could not interact, art was so hard because I did not have all the right materials at my house.
5/10/2021 13:08:56	5th	No	I liked when I was at home that I could have a snack whenever I wanted.	Something that was really hard working from home was that our teacher couldn't give us technical help.
5/10/2021 13:11:29	5th	No	I liked how I had a lot more freedom at home and could see my family for the whole day, and I could take breaks whenever we get our work done.	It felt like we had to get on to zoom meetings right on time and it was hard trying to set up accounts on our iPads through zoom, so when we had a technology problem and we were not on a zoom it was really hard to fix it. It also felt like if you fell behind on your work just the slightest bit it was near impossible to catch back up to the work you needed to finish before new assignments were posted.
5/10/2021 13:11:57	5th	No	Being able to sleep in and play with my pets	You couldn't ask the teacher questions because you would have a zoom call then go off and work
5/10/2021 13:12:34	[Red	Yes	not having to get dressed and get out of the house in a rush.	that i wasn't getting the help i needed from my parents nor teachers.

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
I hope they make a lot more activity's because we do some things why to much like reading or doing sheets but that's just my opinion. I don't want them to change recess.	Going on hikes, [Redacted] dollars and [Redacted] dollars, doing field trips and most things that you would usually look forward to.
I hope that they make school start later and more field trips	Outdoor ed and the boat ride
I hope they have school start later.	Out door ed and lots of special things you do in fifth grade.
I hope we get to drink water inside and take mask breaks a lot.	I feel like i missed out on the trading thing, the outdoor Ed, the boat trips and more that i can't remember.
I hope we don't have to wear masks and separate, because it's hard to breathe and get help. My classroom used to have couches and cool chairs but now we don't.	The boat trip and the headlands mostly, and buddies, I always wanted to be a buddy to a kindergartener.
I hope that they don't get rid of the mini desks next year. I hope that they are able to make it possible for kids to play wherever they want	I think I missed out on buddies, the boat trip, the headlands, and eating in class. Those are just a couple examples.
I hope they take away the zones that separate us from some recess areas during lunch and recess.	Field trips, because I have waited for four years to go on the boat trip that we were supposed to go on this year and after those years of waiting I don't even get to go on that trip.
I hope they will maybe open things that weren't open last year like projects and out door areas. And i hope they wont separate me from my friends because Covid has happened.	The Valentine's Day cakes the headlands trip and not having to social distance during school.
i hope they can go back to normal and not have to wear masks.	i missed out on a lot of felid trips and having experinses with my classmates

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
I get to write a lot of story's.	Mmmmmmm. No		
?	No		
IDK	No spells... NO		
I guess the improvement and seeing friends that is what I'm proud of	Nope :)))))))))		
I feel like I read more and got better at reading, and also I learned a lot of new math skills.	I really liked going on field trips with the smaller class, it was so fun. Also during hybrid, I made as lot of new friends that I had never known much before.	[Redacted]	
I am most proud that I got to level Y out of Z in the reading alphabet.	No not really	[Redacted]	
That we have gotten as far as we have without totally falling apart mentally.	No.		
me being able to switch houses every week while finishing i giant pile of work while doing my chores. And attending my sports practice and still wearing a mask.	That COVID sucks		
getting through it.		[Redacted]	

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/10/2021 13:13:55	5th	No	I liked that I could wake up later and get free snacks and bathroom breaks when ever I want. I also liked having my parents home to help me If I was stuck. I also liked that I could spend time with my dog and that I could take breaks when ever I wanted.	I had to see my class on zoom and then I only got to see half of the class. I also didn't like having to work in the noisy house, because my brother is really loud when he works and he got in a lot of fights with my mom about finishing his work. I also didn't like that giant pile of homework.
5/10/2021 13:14:09	5th	No	I can finish work faster so that I could go hang out with friends.	I mean I guess we had parents but whenever I was stuck I couldn't go to a teacher.
5/10/2021 13:14:48	5th	No	Well, what I liked about learning at a home is that I was in a space that I was used to and I was close to the kitchen hehe. I also loved that I could stay in my pjs all day.	It was hard because I was with my siblings all the time and It was hard to be on the screen all the time and To be away from my friends and I could only see them on a screen which was hard.
5/10/2021 13:15:10	5th	No	I had my own free time so i could work wherever i wanted and i could take my breaks on my own time.	Not being able to have physical help and having to do everything by my self.
5/10/2021 13:17:49	5th	No	It was a half day but you would learn just as much. [Redacted] did a really good job making it fun.	You could not ask as many personal questions or comments.
5/10/2021 13:18:47	5th	No	I liked communicating with my friends even though it doesn't sound like much fun, I really enjoyed that.	Probably not being able to hang out with my friends in school and out of school. And a I became really lonely from that back early in the year.
5/10/2021 13:19:13	5th	No	i got to cook fresh food and what i wanted and i was more focussed because not everyone was asking a queshtion every secent i also got to learn how to use tecnolege better.	we could not ask the teshher quechens esily because we had to email the techer and wait for her to respond.
5/10/2021 13:31:53	5th	No	I could get stuff done really early and I could chill with my dog during school. I also didn't have to sit in a classroom for a long time.	It was hard to map out times to get my work done and I didn't have a teacher to ask questions to. I also wasn't able to hang out will my friends.
5/12/2021 9:55:38	5th	No	Being able to eat whenever I want	Not being able to interact with friends
5/12/2021 9:57:03	5th	No	Time, and the comfortable atmosphere	Isolation from friends and activities
5/12/2021 9:57:36	[Red	Yes	Being able to sleep in.	The complications of online work rather than in-person work.

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
I hope that they will let us going on the field trips still and I hope that they let us learn outside still and let us work with partners. I hope that they don't make it so that we have split cohorts again.	I missed out on a lot of 5th grade traditions like outdoor ed week, buddies, Valentine's Day, and not wearing masks.
I want them to let us go on field trips every week.	Definitely outdoor ed week. But also going on the boat.
	Yes I do because I missed my school traditions that we did for are last year in elementary school and I was pretty bummed out about that.
I would hope by the end of next year we will not have masks and we will be able to come in contact with other classes.	We lost, outdoor ed, valentines cakes, market day, [Redacted] dollars and [Redacted] money, colonial stands indoor, and buddies.
Taking more breaks, [Redacted] would let us go outside and let us take a mask break and to talk to our friends (which we could do at recess but we would like to be active in our active time).	A lot of trips and [Redacted] money.
I hope adults wont have to make us wear masks that's really hard because its hard to breath sometimes. I hope they don't make us social distance and do all the protocols.	in fifth grade we have a lot of activities of the campus and we were not bale to participate in those activities which really bummed me out.
i dont know	out door ed and not waring masks.
I hope there is more recess and break times. I hope don't give us tons of homework.	There was a boat field trip and many other field trips and things that have yummy treats.
	Going to a fun camp at my old school.
I hope school goes back to some sense of normality.	Field trips flexible seating.

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
Finishing that giant pile of homework every week and still having free time.	Nope.	[Redacted]	
Finishing those big piles of homework during half days.			
That we are living history I think its crazy to think about. As a community I think we have grown and we learned so many things cause we had the time and I think its amazing.	Not really		
During half day i finished a HUGE pile of homework every week.			
I am proud of getting my work done and helping my friends.	No	[Redacted]	
Probably accomplishing all the hard things I did from difficult things in online school to hard tests in person school.	not really no.		
the way we did not give up.	no	[Redacted]	
Being able to map out times for my work and getting my work done.	I don't know		
Making new friends.	No		
Cohorts	Since I'm going to middle school next year I really want EVERYTHING to feel normal, except masks. I don't really care about masks.	[Redacted]	

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/12/2021 9:58:14	5th	No	Having a more open lunch and getting out of school earlier.	People having more access to disruptive things AND PEOPLE NOT MUTING!
5/12/2021 10:00:11	5th	No	Having my pets, food, and waking up late.	All the classes like art P.E music and limited eating time.
5/12/2021 10:00:14	5th	No	Not having to wake up at 7am	Having someone supervising you
5/12/2021 10:00:33	[Red	Yes	Food and water easily accessible.	Going to school really sleeps and not getting much movement.`
5/12/2021 10:01:56	[Red	Yes	I liked that I could manage my own time and assignments.	My pets were big distractions
5/12/2021 10:01:57	5th	No	Getting up late	Siblings
5/12/2021 10:03:05	5th	No	I am really fidgety, so when I was learning from home it was nice for me to have something to fidget with, and it helped me focus. I also liked getting really cozy and/or wearing PJs.	Sometimes I had internet issues, and I didn't know what anyone was saying. This didn't happen to me a lot, but I know it happened a lot to some of my classmates.
5/12/2021 10:03:32	5th	No		Not seeing my friends, having "special" classes on zoom, also having to do my assignments whiteout being in the same room as my teacher.
5/12/2021 10:03:45	[Red	Yes	My own seclude, because when my school day goings from 9:00 to 8:15 and I live in San Francisco it is hard. I also liked having my own work space instead of having a desk with lots of other people around me.	Internet problems, I did not have that many, but lots of other people did and sometimes half the class was not there, but what was also hard was when people didn't feel like they would get punished if they did something on zoom because the teachers aren't really there.
5/12/2021 10:04:33	5th	No	Time and the comfortable atmosphere	Isolation
5/12/2021 10:05:31	5th	No		

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
I hope that we get to vote on what recess areas we get.	Field trips
Having people from different classes be able to talk and eat with each other.	Going to the headlands.
Longer recesses. Also, for the first week of middle school, getting to know our classes	My last year of [Redacted] and the history play.
More recess	I missed out on meeting my school friends earlier.
	I didn't really get to see people in person.
	Going to the headlands
This is kind of strange, but I think maybe there should be different kinds of chairs, because I feel like chairs that move around help with my fidgetyness.	I feel like I missed out on things like Halloween because it's not much fun just dressing up by yourself, and also a field trip we were supposed to take to the Headlands.
I really like how we can sit on the ground with our friends for lunch instead of sitting at our assigned table. I also (kind of) like how we were only with our class for recess and lunch because now my class kind of feel like a giant kid family to me. But I hope we don't have zoom classes next year (I think I've got enough zoom for the rest of my life.)	Going to the headlands, a part of the school year in person...
I would hope that adults would really think about kids secludes and what would work best for them, like makeing school work more flexible so kids can do school work at home if they don't have time at school.	What I think we definitely missed out on as a fifth graded is The Headlands, The Gold Rush trip, and sitting at the tables near the garden
	Field trips and friendships

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
How easy it was to get used to having new ways of school	Yes. I think that we could get out of school earlier and still get in the same of ambitious of learning. It worked in the first semester this year.		
My progress in math and just being able to hold up while covid is going on. As well as staying strong when i have to switch middle schools and leave my friends	Nope!		
Getting through the pandemic	What classes are there in middle school?	[Redacted]	
Managing my time			
I feel proud that I am starting to understand multiplying with decimals as well as understanding volume because I was in EDL and I didn't learn those.	My name is [Redacted].	[Redacted]	
I am really proud how well I've been doing, even during the pandemic I have kept learning well.	Not really. That pretty much covers all of my thoughts.		
How we are always going to be looked up to because we spent are whole fifth grade in masks and having to sit 6ft. or 3ft. all the time.	No	[Redacted]	
Cohorts	I want EVERYTHING to feel normal and all the regular stuff we do in middle school to be the same except masks unless we're all vaccinated.	[Redacted]	
		[Redacted]	

Timestamp	Grade	Did you participate?	What did you like the most about learning from home?	What was really hard about learning from home?
5/12/2021 10:08:43	5th	No		The instruction-less assignments
5/12/2021 12:28:56	5th	No	Snacking all the time.	No Kiddo! classes.
5/12/2021 13:50:41	5th	No	The absence of having to get into a car	Lots of things
5/12/2021 13:51:31	[Redacted]	Yes	I could learn with just my friends	I couldn't do all the hands on activities because I didn't have all the materials
5/12/2021 13:51:34	5th	No	Spending more time outdoors and doing more arts and crafts, and getting super creative.	Focusing when my teacher was teaching.
5/12/2021 14:13:29	5th	No	That I could see my family more.	That I felt like I could not get as much help from my teacher.
5/12/2021 14:24:43	[Redacted]	Yes	On breaks I could just walk down stairs and see my family.	I couldn't interact with my classmates and if I had a question for my teacher and I didn't want my whole class to hear then I just couldn't ask it.
5/12/2021 14:25:00	5th	No	Having breaks and seeing my class mates again	Learning and staring at a screen all day
5/12/2021 14:37:52	[Redacted]	Yes	it was cool to be at home	nothing
5/12/2021 14:42:45	[Redacted]	Yes	I like that I don't have to get ready for school and I don't have to wake up early.	What is hard for me is that, when I am on zoom it is kind of hard for me to focus and sit still for a long time.
5/12/2021 15:01:16	5th	No		It was hard always being muted and also whenever I had glitchy internet I could not understand [Redacted], and then also I didn't like how I couldn't communicate with my friends.
5/12/2021 15:28:21	[Redacted]	Yes	I liked always being able to go up to my room our get something in my house when I needed to.	Something that was hard was not being able to see my teacher and friends in person, also having to only use the things you had in your house, or in those little kits, for materials for specials.

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
Open seating at lunch, and to listen to kids more in general	Pretty much everything
I hope that they make slightly smaller classes, and don't have all owns facing forwards	Sitting on top of the monkey bars, playing with friends from other classes, and tag.
	Just about everything. I'm new to the school so I don't feel like I did many things like Halloween.
I	I missed out on a lot of fun 5th grade field trips and
	I definitely felt like some of my friendships dropped because I didn't see them anymore, and some friendships got tighter. I also missed out on the headlands trip, and the symphony trip.
	I had to miss the headlands which made me feel sad.
I personally hope they allow next years students to all be able to see each other during recess no matter what class their in. I also hope they don't have music in the multi purpose room because it seems hard for [Redacted] to teach with all of the chairs and desks thrown behind her.	I feel like I missed out on the Hedlens field trip, I know my brother participated when he was in fifth grade and he said it was amazing so I was hoping to go too.
	Hanging out with my friends
	field trips
Next year I am going to a middle school. And I want everybody vaccinated as soon as they can so eventually we don't have to wear masks.	I missed out on taking a field trip to the headlands.
	Well I was very sad when we didn't get to go to the headlands trip and I would love if we could try to make up for that, and also we didn't get to go on any field trips.
I hope that we can find a way to mix with other classes at recess. I also hope that we don't have to go back on zoom.	I feel like I missed out on a lot of fun field trips and stuff like that that the fifth graders use to do, like the Headlands and the symphony.

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
My element model	The email is my private email and not my school email	[Redacted]	
Remembering to wear my mask every day, and waking up at 6:45 AMI every school day.		[Redacted]	
Improvements on being better in school	No	[Redacted]	
I am most proud of doing well during distance learning			
Completing 5th grade, and being the proud owner of a healthy fish.	I liked the half day school a lot better, it felt a lot calmer and not rowdy.	[Redacted]	
Honestly for just getting through this hard year.	Not really		
I am most proud of how everyone's flexibility to corporate with the challenges and obstacles of this pandemic.	I think that from everyone's perseverance in the long run it will help shape us all out as better people.	[Redacted]	
Academics	No nope		
I am proud of that a am not falling behind academic wise. And keeping my grades up.			
Getting through COVID 19 learning.		[Redacted]	
I'm most proud of being able to make it through this year and still do good in school and be happy.	No.		

Timestamp	Grad	Did you p	What did you like the most about learning from home?	What was really hard about learning from home?
5/12/2021 15:49:09	5th	No	I liked that was able to spend more time with my immediate family.	I have struggled with math and some other subjects in the past so my teacher not be able to help me with some of those subjects got really hard.
5/12/2021 15:53:04	5th	No		I think it was hard to keep focus because i had other things around me
5/12/2021 16:52:29	5th	No	I could still hang out with my family	It was hard to keep my focus because my brother was home with me
5/12/2021 19:29:33	5th	No		My teacher wasn't there to help me if I didn't understand something.
5/12/2021 20:15:57	[Red	Yes	I liked how class was different and how like we got to do different things online I had never done before.	My eyes are really sensitive and it was kind of hard like always looking at the screen and stuff, also sometimes it was hard when like I didn't have the papers I needed so when we would do it in class I would have to like print out the papers and stuff.
5/12/2021 20:27:42	[Red	Yes	It was nice being at my house and in my room.	I didn't get to see my friends in person and it was harder to learn subjects on zoom.
5/12/2021 20:39:50	5th	No	Being with family.	Not seeing friends and getting work sheets.
5/13/2021 7:24:58	5th	No	Being with family.	Not interacting with other kids.
5/13/2021 7:28:30	[Red	Yes	That when I had a break for lunch or something or recess I could quickly eat something instead of not eating when we go to in person school.	Sometimes it was hard to listen because it was just hard to sit in my chair all day I kept on wanting to move around.
5/13/2021 7:58:28	5th	No	I did not have to get changed every morning	My internet connection
5/13/2021 8:09:32	[Red	Yes	Nothing	Everything
5/13/2021 14:24:59	4th	No	Californian regions	Rainbow multiplacation
5/13/2021 18:01:57	[Red	Yes	That you can eat ramen whenever you want.	Some times the internet goes out and you can't learn.

After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?	What do you feel like you missed out on or lost because of the pandemic in school this year?
Something that has always been very important to me and something that I value is being able to socialize with my friends and or my family. Not being able to have recess with them was challenging. So I hope that adults with in the next few years find a way that kids can have recess together without splitting them apart them apart.	When I was in the younger grades something that we all fantasize about was our field trips. Going to the symphony, headlands and all the amazing field trips of the fifth graders are provided with we were not able to participate in them.
I hope we will be able to mix classes at recess because that was one of the fun things was seeing and playing with your friends in different classes	I feel like i missed the headlands and graduation just wont be the same
I hope they aren't super strict about tag and we can sit closer to each other	I feel I missed a lot of valuable time with my friends
	My class was supposed to go on an overnight field trip to the headlands but it got canceled.
Probably just to wash your hands more as a reminder and making sure kids should wear masks in winter so it can prevent flues and other things like that.	I was really hoping to go to the headlands because after seeing all those pictures and stuff I got so excited to go, like same with the symphony.
I hope next year COVID will be better and we won't have to wear masks.	I feel that I lost connecting with my friends and classmates as much as usual because of restrictions.
I wont be here next year.	Seeing friends and field trips,
I won't be there next year.	Field trips and friends
Maybe they can a thing where you can take like a little 5 minutes break if your having a hard time that everybody can use	I'm really sad we couldn't do field trips but most importantly I really wanted to go to the headlands.
I hope the schools keep the "anywhere" seating the same	Some birthdays and other partys
	Better instruction
	I was sick for 2 days and I missed. How to make fraction with remainders
Go to school in person	
I think there should be pizza in hot lunch again. I hope they don't make us pay for hot lunch.	My passion for math.

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
This year or something that I am very proud of is I was able to accomplish was being [Redacted], Which is another thing that I have always wanted to do.	To at this time but if I have any questions or concerns I will email you.	[Redacted]	
Preserving through the whole year		[Redacted]	
That we got to go back full time	No		
	I prefer in school learning than online.		
Just being able to go online and get to class every morning on a iPad for about almost a year or so.	My main email is [Redacted] if there is anything else important to share, thank you, I very much enjoyed this.	[Redacted]	
I am most proud of getting through the school year and overcoming the obstacle of COVID,	No		
Dealing with the pandemic.	No	[Redacted]	
Dealing with the pandemic.	No	[Redacted]	
Getting better at geometry	No	[Redacted]	
	No		
I survived	Nah		
Seeing my friends in person again	No		
My skills in math.	Yes, i love my teacher [Redacted] and i think she deserves best teacher award.	[Redacted]	

Timestamp	Grade	Did you prefer learning from home?	What did you like the most about learning from home?	What was really hard about learning from home?
5/13/2021 19:06:27	[Redacted]	Yes	Nothing	Everything
5/13/2021 19:47:31	5th	No	Getting snacks	Distractions
5/14/2021 13:06:08	[Redacted]	Yes	Food and water easily accessible.	Going to school really sleeps and not getting much movement.`
5/18/2021 14:16:30	[Redacted]	Yes	Being able to sleep in.	The complications of online work rather than in-person work.

<p>After this pandemic, what do you hope adults will do to make in-person school better for next year? What do you hope they don't do to school next year?</p>	<p>What do you feel like you missed out on or lost because of the pandemic in school this year?</p>
	<p>Better instruction</p>
<p>I hope where aloud to do more things as a class have more activities like I was super super sad that we couldn't go to the head lands I was waiting ever since my sister went in 5th and I don't I just want to participate in things like that</p>	<p>Head lands camping you know that thing [Redacted] hogwarts stuff</p>
<p>More recess</p>	<p>I missed out on meeting my school friends earlier.</p>

What are you most proud of this year?	Is there anything else you would like to share with us?	Please leave your email address if you would like us	
I survived	Nah		
Getting better at math	No	[Redacted]	
Managing my time
