COVID-19 School Site-Specific Protection Plan Guidance & Template

Guidance for Developing Your School's COVID-19 School Site-Specific Protection Plan (SSSPP)

1. Establish a multi-disciplinary Task Force (ie, teachers, custodians, school secretaries, para-educators, parents, students, and administrators) to develop and support this School Site-Specific Protection Plan who will meet regularly to monitor Public Health Information and adjust the plan based on input from all stakeholders as needed.
2. Perform a school site walkthrough with the Task Force of your campus, classrooms, multi-use rooms, and office spaces and use the protocols, guidance and best practices detailed in the Public Health Guided Return to Site-Based Classroom Instruction as a guide for conducting your assessment.
3. Develop and finalize your SSSPP and train staff before site-based classroom instruction begins.
4. Use the template below to create your own SSSPP by filling in the required details, based on your individual school site/school or district office, to mitigate the transmission of COVID-19, under the guidance of the Public Health Officer.
5. Finalize your SSSPP to distribute to staff and families and post on your school website. You may also post a copy at your school or office at a visible location, at or near the main entrance where students, staff and visitors can easily review it without touching the document, or post a Certificate of Completion (included below) with information on how to review the plan in its entirety online.
6. Post signs at each of the primary staff and student entrances to inform all students, staff and visitors that they should:
 - If you have COVID-19 symptoms, do not enter the facility;
 - Maintain a minimum six-foot distance from one another;
 - Sneeze and cough into a cloth or tissue or, if not available, into one's elbow;
 - Wear face coverings, as appropriate; and
 - Do not shake hands or engage in any unnecessary physical contact.

Templates for signs can be downloaded for use from the [Marin Recovers website](#).

Tools for Developing Your School Site-Specific Protection Plan

1. COVID-19 School Site-Specific Protection Plan (SSSPP) Template

The Marin County Office of Education is providing this template that can be used by any school or district in Marin to create their own School Site-Specific Protection Plan (SSSPP). It contains all of the standard content already written for you to re-open your school or school office and prompts you to "fill in the

Tam Valley Elementary School
 350 Bell Lane
 Mill Valley, California 94941
 tel (415) 389-7731

www.mvschools.org/om

blank” where unique information is required in order to complete your SSSPP. The template has been reviewed and supported by Marin County’s Public Health Officer.

2. School Specific Best Practices

The MCOE Rethinking Schools Task Force is monitoring updated guidance from the Center for Disease Control, the California Department of Public Health, the California Department of Education, and Marin County Public Health to support and promote emerging best practices to share with the school community in Marin. These best practices are based on alignment with local, state and federal guidelines in coordination with the county’s Public Health Officer.

Specific Control Measures and Screenings

Please provide as much detail as possible for how you intend to implement each guideline. If you need additional space, please provide an attachment.

1. All activities are consistent with and will adjust to changing applicable state and local Public Health Orders. A multi-disciplinary Task Force has been established to develop and support this School Site-Specific Protection Plan, who meet regularly to monitor and adjust the plan based on input from all stakeholders.

A multidisciplinary Task Force has been established and SSSPP Task Force meetings have been held. A walk through and meeting is scheduled September 18th. Additional Task Force meetings will be scheduled as needed. SSSPP will be a standing agenda item to discuss with staff at staff meetings. The Task Force will monitor and adjust the plan based on input from all stakeholders. The SSSPP will be shared with all staff members and families, and will be posted on the school website.

2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, and access to essential protective equipment, and up to date student and staff attendance tracking.

A Health and Safety Station that includes EPE is located in the office and will be replenished on a regular basis. Available EPE includes: Hand sanitizer, masks, face shields, gloves, protective eyewear, sanitizing spray (Sani-Q), disinfectant supplies and thermometers. Staff can collect equipment as needed. Hand sanitizer has been installed in all classrooms and offices. All staff members have been supplied with a Humanity Shield. Hand washing posters are placed by all sinks. Face coverings will be worn by all students, staff and visitors on the school campus (per MHHS Guidelines). Plexiglass shields or sneeze guards have been installed in the front office and teachers have plexiglass shields for working with children. MERV 13 filters have been installed and handwashing stations have been purchased. Student attendance will be taken daily using Aeries.

3. Training is provided to all staff, students and families reinforcing the importance of health and safety practices and protocols. Training is provided to all staff, students and families reinforcing the importance of health and safety practices and protocols.

Staff will participate in Keenan Trainings for the use of Sani-Q, Coronavirus, Cleaning and Disinfecting

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

your workplace prior to the start of in-person instruction. Staff will receive training throughout the year if updated guidance from Public Health is released. Age and developmentally appropriate training for students, such as teaching children to wear a mask correctly, avoid touching their face, hand washing etc. will occur in the classroom from the teacher.

4. A primary and secondary point of contact are established, identified, and trained at each school site to direct questions or concerns around practices, protocols, or potential exposure. These points of contact will also serve as a liaison to Public Health and contact information is identified in the School Site-Specific Protection Plan. (Points of Contact listed above).

Laura Myers, the Principal, and Julie Harris, Director of Student Services, will serve as the primary and secondary points of contact to liaison with Public Health. Any questions or concerns and potential exposures should be reported to: Laura Myers, Principal.

5. Plans are implemented for intensified cleaning and disinfecting, including training for staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces.

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

All classrooms will be sanitized between the first and second cohort and after the second cohort leaves for the afternoon. The office and shared staff spaces will be sanitized at the end of each day. Staff will ensure that there is adequate ventilation when using these products.

- All cleaning solutions provided by the district are EPA approved for use in classrooms.
- Each classroom and workplace will have access to paper towels and spray bottles of a cleaning solution (Sani Q) to wipe down light switches, door knobs, desk surfaces, shared objects, and any other high touch surfaces.
- All classrooms will be cleaned daily.
- Bathrooms will be cleaned/disinfected twice a day, between cohorts and at the end of the school day.
- The Isolation Room will be closed off and not used until cleaned and disinfected after use.
- If feasible, 24 hours will pass before cleaning and disinfecting.

Classrooms and offices will be sanitized by classroom teachers, Admin Assistants, and custodians as described above.

Staff members each have a labelled spray bottle filled with Sani-Q. Staff are trained how to clean, sanitize and disinfect classroom spaces, high touch areas and surfaces in accordance with Public Health and CDC recommendations.

Custodial staff will disinfect high touch areas in hallways and classrooms daily.

6. Health screening for students and staff are conducted as advised and updated by Public Health. On July 23, 2020 the Centers for Disease Control and Prevention provided updated guidance on screening K-12 students emphasizing that parents and caregivers must monitor their children for signs of infectious illness every day at home, and universal symptom screening for K-12 students is not required.

Staff are required to do a passive screening before entering the school campus. Staff are expected to review the health screening questions below. If all answers are “No,” they may scan the QR code, enter their name in the form, and enter the building. If any answers are “yes,” they must stay home.

In the last 14 days, have you or anyone in your household had close contact with someone who has or is suspected to have COVID-19?

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

- Yes
- No

In the last 24 hours, have you experienced any of the following symptoms without the use of fever-reducing medications? Fever, Headache, Cough, Sore Throat, Shortness of Breath, Chills, Muscle Aches, Loss of Taste or Smell, Gastrointestinal (nausea, vomiting, or diarrhea)

- Yes
- No

Since a Daily Health Screening for students is not mandatory, it is vital that parents/guardians monitor their children and keep them at home if they show symptoms of Covid-19 and/or if they have a fever. Parents and caregivers are required to conduct a daily screening of their child(ren) for symptoms of COVID-19 using a checklist before arriving at school. Children should not return to school until fever free for at least 24 hours without the use of medication. If a student is absent from school due to symptoms, the parent/caregiver is required to contact the school to report the absence reason and contact their healthcare provider.

7. Staff and students who are sick are expected to stay home and an isolation area is identified for students who begin to exhibit symptoms during the school day, until they can be picked up.

Describe placement of designated Isolation Area:

The isolation area is situated in the room marked "Counselor" in the main office. A First Aid station is set up in the nursing area..

8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate transmission of COVID-19, including testing for staff at the beginning of the school year, and then no less than once every two months. This may include testing of students with appropriate parental permissions obtained in advance. (Identify testing vendors, if applicable)

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

Staff testing will be consistent with Marin County Health and Human Services guidelines. MVSD and MVTA will work in partnership with the county to increase testing capacity for students and staff.

9. Protocols, actions and template communications are in place for the following COVID-19 related scenarios (link: [Marin County Public Health Protocols & Communication Templates](#) for each scenario):
- A student or staff member either exhibits COVID-19 symptoms or has a temperature of 100.4 or above.
 - A family member or someone in close contact with a student or staff member tests positive for COVID-19.
 - A student or staff member tests positive for COVID-19.
 - A student or staff member tests negative for COVID-19 after symptoms or confirmed close contact.

Tam Valley Elementary will follow the County Public Health protocols that are broken into four scenarios and use the communication templates provided. The poster is displayed in the school office and Principal's office. Letters are prepared. Laura Myers and Stacy Woolley will have copies of the communication for each scenario.

10. Where practicable, physical distancing of six feet is maintained between adults and students; four feet distance is permissible between students within a classroom or instructional area where requirements herein are in practice.

Staff will implement spacing strategies and instruction in both indoor and outdoor spaces that are developmentally appropriate. There will be five (5) to six (6) feet between all student workspaces, between all educator and student workspaces, and between all employee workspaces.

11. For elementary schools, stable classroom cohorts (up to standard class size at each respective grade level) are maintained throughout each school day, and through each quarter or semester, with an assigned primary cohort teacher, and systems are in place to prevent the mixing of classroom cohorts.

Stable classroom cohorts will be established with a primary cohort teacher.

Recess will be scheduled and areas will be demarcated to prevent mixing of classroom cohorts. These

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

cohorts will be maintained in classrooms, recess, and snack times.

12. For middle and high schools, larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding schoolwide mixing of students and staff.

N/A

13. Where practicable, desks are arranged facing forward to minimize face to face proximity between students.

There will be five (5) to six (6) feet between all student workspaces, between all educator and student workspaces, and between all employee workspaces. The District, in partnership with the Association, will maximize the classroom spaces for the furthest distance. Priority to alternate spaces will be given to teachers whose classrooms are not able to accommodate five (5) to six (6) feet of distance. Distances may be less than five (5) feet upon mutual agreement of the Superintendent or designee and Association President or designee, on a case by case basis to ensure A/B cohorts.

14. School staff are permitted to visit and instruct more than one classroom cohort, following physical distancing and face covering protocols, and must document/record visits to classrooms that are not identified as their primary classroom cohort.

School staff shall limit the number of in-person visits to classroom cohorts in order to maintain the stability of the cohorts and to minimize the spread of the illness. Staff not assigned as the primary cohort teacher shall primarily use virtual methods of instructing or interacting with the student cohort, as practicable. QR Code access is required by all staff to enter each classroom. QR codes will be displayed on classroom doors or in the window so that staff can record entry to each classroom. Laura Myers and Stacy Woolley will be added as collaborators to classroom teacher's Classroom Access form.

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

15. Routes for entry and exit to the campus will be designated for each classroom cohort, using as many entrances/exits as feasible.

Multiple points of entry and exits will be utilized:

All Classrooms will be entered and exited through classroom exterior doors.

No interior hallways will be utilized for ingress or egress.

Signage will be placed at each entry point indicating class cohorts. Markings and arrows on the ground will show direction, routes, and social distancing.

16. Schedules for arrivals, recess and lunch will be strategically coordinated to prevent mixing of classroom cohorts.

Arrival – The school campus will operate at 50% capacity. During this time all students within an A or B cohort will arrive at the same time through the drop off circle. Students will congregate by their exterior classroom door maintaining social distancing. Teachers will meet their class by the outside door and then enter the classroom.

Recess – Areas of the campus will be scheduled and designated to specific cohorts.

Lunch – Lunch will not be served. For those students who order a lunch online, a to-go lunch will be provided.

17. Congregate movement through hallways will be minimized as much as practicable.

Staff and students will not use interior walkways and hallways when practicable. Should a need arise, staff and students will walk in single file on the right-hand side of hallways as indicated by directional arrows placed on the floor.

18. Large gatherings (i.e., school assemblies) are currently prohibited.

No gatherings of multiple cohorts, such as assemblies, performances and other special events will be

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

permitted.

19. The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort. Efforts should also be made to maximize fresh air flow in classrooms through existing ventilation systems and opening of windows and doors as much as possible.

Outdoor space for instructional purposes will be identified and assigned to cohorts to prevent mixing. Windows will be open in classrooms (weather permitting) and approved air filters will be placed in workrooms and offices without windows.

20. Use of shared playground equipment will be limited in favor of physical activities that require less contact with surfaces, and shared equipment will be cleaned between uses.

Play structures will be closed.

21. Use of non-classroom space for instruction such as gymnasiums and multi-use rooms should be considered to support physical distancing with cleaning between uses.

Non-classroom space such as the Multi Purpose Room will be considered to support physical distancing, but the staff will work together to minimize this possibility as TV's MPR is limited in space.

22. Meals will be served classrooms or outside or in classrooms instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable.

Lunch will not be served. Families may purchase a to-go Choicelunch online that can be collected from school on a Monday. Meals for the whole week are individually pre-packaged for collection between 11:45am – 12:15pm.

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

Cohort A can collect meals to take home to eat.

Cohort B can collect meals and eat Monday's meal only on campus.

- Weather permitting, meals will be eaten outdoors, while maintaining social distance of at least 6 feet apart.
- Students will wash their hands with soap and water for 20 seconds before and after eating
- Tables and benches will be disinfected after use.
- All other lunches are to be eaten at home.

23. Routines and schedules will be developed to enable students and staff to regularly wash their hands at staggered intervals.

Two handwashing stations will be placed on the playgrounds. Classroom teachers will develop routines and a schedule with their class. Hand washing posters will be displayed by all sinks.

24. All staff as well as all students in grades 3 - 12 are required to wear face coverings while in the classroom and on campus unless there is a medical or behavioral contraindication. Students from grades TK - 2 are strongly encouraged to wear face coverings and should be supported and taught how to wear them properly.

Face coverings are required to be worn properly at all times by all individuals on the school campus, indoors and outdoors. This applies to all students grades K-5, all staff and any visitors on campus over the age of 4.

- All students will use face coverings provided from home. If families are unable to provide a face covering, school staff will assist in providing one.
- Face coverings shall not be required for students or staff if there is a medical or behavioral reason for not wearing a face covering. This must be verified in writing from a medical professional, member of the school IEP team, or the school counselor.
- Staff may use face coverings provided from home and use a Humanity Shield provided by MVSD.
- Face shields are not recommended as a replacement for face coverings given concerns over their ability to minimize droplet spread to others. However, teachers and other staff may consider using face shields in combination with face coverings when in the classroom to

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

further reduce the risk of transmission.

- Teachers may consider using a Humanity Shield during phonological instruction to enable students to see the teacher's mouth and in settings where a face covering poses a barrier to communicating with a student who is hearing impaired or a student with a disability.
- Students will learn about appropriate procedures for putting on, taking off, and storing the face covering (i.e. during meal times, snack times).
- Teachers will maintain a supply of disposable masks in the event that a student or staff member needs a replacement during the day.
- Administrators will share with staff and parents a plan to address students and others who are not in compliance with the face covering requirements before in person learning resumes.

25. Training will be provided for staff and students on proper use of face coverings which will include instruction to minimize touching of face coverings.

Staff training on correct use of face coverings will be provided. Students will be taught how to wear a face covering in an age appropriate and developmentally appropriate manner. Staff will receive Face Shields. <https://coronavirus.marinhhs.org/masks#correctly>

26. Sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have separate individually labeled boxes or cubbies.

Children in the main building will have individual labeled cubbies or hooks outside their classroom doors. Students will be discouraged from sharing objects that are difficult to clean or disinfect and will focus on hand hygiene with regular breaks.

- Student's belongings will be separated from others' and placed in individually labeled containers for use in class. • Students will have individual art, P.E. and music kits for specialist classes.
- Cohorts will have limited shared equipment that is easy to clean and disinfect between use.
- Shared playground equipment will be limited in favor of physical activities that require

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

less contact with surfaces and allow for greater physical distancing.

- All play structures are closed at this time.

27. Sharing of electronic devices, clothing, books and other games or learning aids will be avoided as much as practicable.

Classrooms will be set up with equipment and materials that are easy to clean and disinfect throughout the day. Students books, supplies and manipulatives will be kept in labeled bins to reduce sharing. An electronic device will be available for each child in a cohort and sanitized between uses. After use, books will be placed in an area identified as “used” and left for three days before being put back into circulation

28. Use of privacy boards or clear screens will be considered as much as practicable.

Each member of staff has a movable plexiglass screen to use at their discretion e.g. one-on-one assignments with students, assessments, when physical distancing between students and staff may be challenging etc.

29. Non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.

Non-essential visitors will be limited. Student drop-off and pick-up will be at the entrance of the school. All visitors will need to call the office for entry. A sign with the telephone number will be posted on the front door. All visitors will be required to check in using the QR Code Check-In System. All visitors, except for those under the age of 4, are required to wear a mask at all times and adhere to social distancing. Parents are required to make an appointment to meet with a teacher. This may be in person or virtually depending upon the teacher’s preference. There will be no parent volunteers at this time.

Tam Valley Elementary School
350 Bell Lane
Mill Valley, California 94941
tel (415) 389-7731

www.mvschools.org/om

30. A School Site-Specific Protection Plan outlining the above measures is completed, posted and shared with all stakeholders and updated as state and local Public Health guidance dictates.

The School Site-Specific Protection Plan will be shared with all stakeholders. It will be posted on the school website and updated when necessary.

*****Attach any supporting documents or additional information for each Guideline to the back of the SSSPP.***
