Press Release

Kate Sprague Announced as New Mill Valley School District Director of Educational Technology

The Mill Valley School District is pleased to announce our new Director of Educational Technology, Kate Sprague. Mrs. Sprague will join the team prior to the 2022-23 school year.

The district conducted an extensive interview process, including a competitive application review, and on-site panel interviews, and is confident that Mrs. Sprague is the best leader to serve in this vital role. Combined with the ability to effectively lead a team, she has proven that her thoughtful and authentic integration of technology has been a priority and a passion. She has carried this through her career from an Edna Maguire classroom teacher to Teacher on Special Assignment (TOSA) where, as an Instructional Technology Coach, she worked to connect Technology Department skills and applications, with practical classroom solutions. Over the past year, Mrs. Sprague has continued her career with MVSD serving as our Middle School Assistant Principal.

Mrs. Sprague studied Mathematics at University of Puget Sound, received her Master of Science in Education degree from Northwestern University's School of Education and Social Policy, and recently completed a Master of Arts in Educational Administration from San Francisco State University. She loves being a student, appreciates math puzzles, and has been an avid reader since elementary school. She enjoys young adult literature, and she has had fun getting book recommendations from Mill Valley Middle School (MVMS) students this year.

Mrs. Sprague met her husband, Doug, in college and currently they live in San Rafael, with their two young children, Owen (8) and Quinn (4). They love spending time together as a family, and are avid sports fans.

The District will be actively recruiting to fill the position of Assistant Principal at MVMS this summer prior to our return in August.
